

Patient Name: _____

1. Work To Be Done

I understand that I am having the following work done: — Fillings, — Crowns, — Bridges, — Dentures, — Root Canals, — Extractions, — Impacted Teeth Removed, — Periodontal Treatment — Other (Initials _____)

2. Drugs and Medications

I understand that antibiotics, analgesics and other medications can cause allergic reactions causing redness and swelling of tissues, pain, itching, vomiting, and/or anaphylactic shock. (Initials _____)

3. Changes in Treatment Plan

I understand that during treatment it may be necessary to change or add procedures because of conditions that were not discovered during examination but were found while working on the teeth. For example, root canal therapy may be discovered to be needed during routine restorative procedures. I give my permission to the Dentist to make any/all changes and additions as necessary. (Initials _____)

4. Removal of Teeth

Alternatives to removal have been explained to me (root canal therapy, crowns, and periodontal surgery, etc.) and I authorize the Dentist to remove the following teeth and any others necessary for reasons in paragraph #3. I understand removing teeth does not always remove all the infection, if present, and it may be necessary to have further treatment. I understand the risks involved in having teeth removed, some of which are pain, swelling, spread of infection, dry socket, loss of feeling in my teeth, lips, tongue and surrounding tissue, or fractured jaw. I understand removal of teeth can result in parasthesia that can last permanently or for an indefinite period of time, and that parasthesia numbness (a tingling sensation) is a possible risk of injection/extraction. I understand I may need further treatment by a specialist if complications arise during or following treatment, the cost of which is my responsibility. (Initials _____)

5. Crowns, Bridges, Veneers and Caps

I understand that sometimes it is not possible to match the color of natural teeth exactly with artificial teeth. I further understand that I may be wearing temporary crowns, which may come off easily and that I must be careful to ensure that they are kept on until the permanent crowns are delivered. I realize the final opportunity to make changes in my new crown, bridge, or cap (including the shape, fit, size, and color) will be before cementation. It is also my responsibility to return for permanent cementation within 20 days from tooth preparation. Excessive delays may allow for tooth movement. This may necessitate a remake of the crown, bridge, or cap. I understand there will be additional charges for remakes due to my delaying permanent cementation. I understand that in order to do these procedures teeth have to be reduced in size, amount of reduction is determined by the Dentist to ensure a proper design. (Initials _____)

6. Endodontic Treatment (Root Canal)

I realize there is no guarantee that root canal treatment will save my tooth, and that complications can occur from the treatment, and that occasionally root canal filling material may extend through the tooth which does not necessarily effect the success of the treatment. I understand that endodontic files and reamers are very fine instruments and stresses vented in their manufacture can cause them to separate during use. I understand that occasionally additional surgical procedures may be necessary following root canal treatment (apicoectomy). I understand that the tooth may be lost despite all effort to save it. (Initials _____)

7. Periodontal Loss (Tissue and Bone)

I understand that I have a serious condition causing gum and bone inflammation or loss and that it can lead to the loss of my teeth. Alternative treatment plans have been explained to me, including gum surgery, replacements, and/or extractions. I understand that undertaking any dental procedures may have a future adverse effect on my periodontal condition. (Initials _____)

8. Fillings

I understand that care must be exercised in chewing on fillings especially during the first 24 hours to avoid breakage. I understand that a more extensive filling than originality diagnosed may be required due to additional decay. I understand that significant sensitivity is a common after effect of a newly placed filling. (Initials _____)

9. Dentures

I understand the wearing of dentures is difficult. Sore spots, altered speech, and difficulty in eating are common problems. Immediate dentures may require considerable adjusting and several relines. A permanent reline will be needed later. This is not included in the denture fee. If a remake is required due to my delays of more than 30 days, there will be additional charges. (Initials _____)

10. Implants

This process involves several steps and could last from 2-6 months before complete (depending on healing time needed). I understand there is no guarantee that the body will integrate the implant. Sometimes implants fail, there is also a risk of nerve and sinus damage. Adjacent teeth may also experience temporary or permanent damage or sensitivity. (Initials _____)

I understand that dentistry is not an exact science and that therefore, reputable practitioners cannot properly guarantee results. I acknowledge that no guarantee or assurance has been made by anyone regarding the dental treatment which I have requested and authorized. I understand that no other Dentist is responsible for my dental treatment.

I hereby authorize any of the doctors or dental auxiliaries to proceed with and perform the dental restorations and treatments as explained to me. I understand that this is only an estimate and subject to modification depending on unforeseen circumstances that may arise during the course of treatment. I understand that regardless of any dental insurance coverage I may have, I am responsible for payment of dental fees. I agree to pay any attorney's fees, collection fees, or court costs that may be incurred to satisfy this obligation.
